

Homeserve Reports Third Quarter Results

Toronto, December 21, 2007 – Homeserve Technologies Inc. today reported a basic and diluted loss available to common shareholders of \$0.1 million (\$0.02 loss per common share) on revenues of \$1.4 million for the third quarter ended November 30, 2007 compared to a basic and diluted loss available to common shareholders of \$0.6 million (\$0.08 loss per common share) on revenues of \$1.4 million for the same period of the last fiscal year. The \$0.5 million quarter-over-quarter difference was primarily attributed to a \$2.0 million increase in the gains realized on the sale of certain holdings within the Company's investment portfolio. Partially offsetting these amounts was a \$0.6 million increase in amortization of intangible assets resulting from additional consideration earned under terms of the ICON acquisition, a \$0.5 million increase in costs associated with the Aeromove program, and a \$0.2 million decrease in Investment income as a result of a change in the Company's investment strategy.

Outlook

Homeserve is well positioned to be a leading technology and marketing services company in the home and move sector by leveraging its technology assets, relationships with related Brookfield companies in the Contract Residential Real Estate portfolio, and through a strategic focus on marketing services in relevant sectors. In addition to Aeromove, we will look at leveraging the move services platform by developing partnerships with other loyalty programs which seek to reach the Canadian moving population with a one-stop move services program.

While markets for software remain uncertain, we are optimistic that the sustainable stable cash flows from the ICON acquisition combined with licensing opportunities from the Company's CRM software and move services program model, will position the Company well for the future growth.

Homeserve will consider seeking a re-listing of the Company's common shares when there is a reasonable probability of returning value to common shareholders after having considered the overall capitalization of the Company and in particular the servicing of the obligations related to the Company's preferred shares.
